## Summary

A passionate **React Developer** with hands-on experience in building **responsive and modern web applications** using **React**, **JavaScript**, **HTML**, **CSS**, and **Tailwind CSS**. Skilled in creating **reusable components**, managing **state efficiently**, and integrating **APIs** to deliver smooth user experiences. Dedicated to writing **clean, maintainable code** and continuously learning new front-end technologies to build **innovative web solutions**.

## Experience

**Flynaut SaaS Pvt. Ltd.**

*Pune — Oct 2024 – Present*

*React Developer*

- Built **responsive web applications** improving **user experience and performance**.
- Developed **reusable React components** and **modular UI** for consistency.
- Implemented **secure authentication** and **role-based access control** using **Appwrite**.
- Integrated **Google Apps Script** for automated form submissions and data handling.
- Created **trainee listing pages** with **search, filter, sort, pagination, and profile details**.
- Developed interactive **e-commerce features**: sticky navigation, image sliders, product zoom, and cart functionalities.
- Optimized performance using **lazy loading** and **bundle analysis**.
- Participated in **Agile sprints**, code reviews, and collaborated via **Git/GitHub**.
- Managed state using **Redux** and **Context API** for efficient data flow.
- Debugged and resolved **UI/UX issues** using **Chrome DevTools**.
- Ensured **cross-browser compatibility** and **mobile responsiveness**.

## Technical Skills

**Technologies / Languages:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux  
**Tools & Version Control:** VS Code, Git, GitHub, Chrome DevTools

## Personal Projects

**Trainee Employees Management Portal**

*Next.js, Tailwind CSS, Appwrite*

- Built a platform to manage **trainee lifecycles** with **secure authentication** and **role-based access**.
- Implemented **search, filter, pagination, and responsive UI** for better usability.
- Designed **dynamic dashboards** to track **trainee progress** and **performance metrics**.
- Integrated **notifications** for task updates and deadlines.
- Ensured **mobile responsiveness** and optimized **page load speed**.
- Wrote clean, **reusable code** for easier maintenance and future enhancements.
- Applied modern **UI/UX principles** for user-friendly interface.
- Added a **task assignment system** with tracking for supervisors.
- Enabled **report generation** for trainee performance.

**Radhika Herbal – Beauty Products Portal**

*React.js, Tailwind CSS, Google Apps Script*

- Developed a responsive **e-commerce portal** with **reusable components**, sticky navigation, and interactive sliders.
- Integrated **form submissions** via **Google Apps Script** and deployed on Netlify.
- Implemented **product search, filter, sort, and pagination** functionalities.
- Added a **cart system** with quantity updates and checkout simulation.
- Applied **lazy loading** and optimized images for faster page performance.
- Designed a clean, **user-friendly UI** with modern layout and consistent branding.
- Ensured **cross-browser compatibility** and mobile responsiveness.
- Added **promotional offers** and discount handling.
- Implemented **order summary** and confirmation notifications.

## Education

**Rajiv Gandhi College of Engineering & Research, Nagpur**

Bachelor of Engineering in Information Technology

*2023*

## Achievements

Certificate of achievement for outstanding performance during training.
